

Technical & Enforcement Branch, Superfund Division
Federal Partners Weekly Activity Report
Week ending December 12th, 2014

Monday- USGS Fort Worth

Tuesday- EPA Dallas

Wednesday- EPA Dallas

Thursday- USGS Fort Worth

Friday – USGS Fort Worth

Arkwood- I submitted status reports to close out FY14 and for the first two months of FY15.

ATSF- I submitted status report for the first two months of FY15.

Circle Court- Jon Thomas (USGS Fort Worth) provided status report for submittal for FY14.

Cleveland Mills- I submitted status report for FY14. Project is completed.

Delatte- I submitted status report for FY14. Project is completed.

Longhorn- Rich and I had some additional discussion about site 67 well network for MNA. I joined Rich on a LHAAP manager's meeting conference call on Thursday. I am continuing my review of LHAAP-46 and plan to submit comments by COB on Friday (today). Army submitted LHAAP-58 RACR and the 2nd Quarter WTP report on Wednesday for review. Rich has asked if I could review LHAAP-37 RACR and LHAAP-58 RACR before leaving for the holidays. I submitted status report to close out FY14 and for the first two months of FY15.

Prewitt- I submitted status reports to close out FY14 and for first two months of FY15. I briefly met with Sai to discuss future work at the site. Sai said he had one additional report he might want me to review.

San Jacinto- I submitted status report to close out FY14.

Tar Creek- I briefly met with John Meyer to ask if EPA wanted to continue operation of the gauges at Tar Creek. He asked me to provide Katrina and himself with a cost estimate. I contacted USGS Oklahoma and provided the cost estimate. Jason Lewis (USGS Oklahoma) provided a status report to close out FY14.

Timesless Treasure- USGS in Louisiana and I are continuing our work on the field report. Data from the soils arrived this week and we are expecting water and soil gas data within the next few weeks. Final report is expected to be delivered before the end of the CY. I submitted a status report for the first two months of the FY.

-General

-I met with Kathy Gibson on Tuesday to discuss status of the WAFs for E. 67th Street and Sandy Beach. In addition, I requested a conference call between the USGS and EPA to discuss the status of funding within the IAG. Kathy would like to have this call in January.

-Chris Villarreal asked me some questions about the revised IAG that EPA is drafting. After some detailed discussion we decided that we should have a conference call with the proper staff from the EPA and USGS to discuss the details of the IAG. A conference call will be scheduled.

Monday- USGS Fort Worth

Tuesday- USGS Fort Worth

Wednesday- USGS Fort Worth

Thursday- USGS Fort Worth half day/AL

Friday- AL
